## About us

First Ship Lease Trust ("FSL Trust" or "the Trust") is a shipowner and a provider of leasing services to the international shipping industry.

FSL Trust owns a diversified portfolio of 22 modern and well-maintained vessels comprising containerships and a variety of tankers:

- 12 vessels are leased to international shipping companies on long-term bareboat charter basis
- 10 vessels are employed on short-term time charters or in pools

About half of the Trust's revenue is derived from the rentals received from fixed-rate bareboat charters providing the Trust with stable and predictable long-term income. The vessels employed on shorter-term charters or in pools expose the Trust to market upside.

FSL Trust has seen a marked improvement in its performance since August 2013, when the current management team was appointed:

- Exited the dry bulk market in early 2014, taking advantage of vessel value increases to optimally time a sale
- Became fully compliant with its original loan covenants and has significantly improved its financial performance to date
- Strong cash flow generation allowing the Trust to fully finance the acquisition of an MR tanker in November 2015

FSL Trust is listed on the main board of the Singapore Exchange.
